Improvement

New option on locking case

It is now possible to specify that e-mail to a locked case is not to be sent to the inbox, but instead be rejected with an email to the sending user. A new email template is made available for this message.

Contact Technet to enable this function.

Bugfix

Errors in 7-Zip-attachments

When uploading/sending e-mail with attachments from a case, there could arise problems with attachments in 7-Zip-format.

FAQ editing

Fixed a bug where the FAQ overview in edit-mode would become blank after editing a FAQ.

Bug when searching for projects

Fixed a bug where new project would be opened after hitting enter in search
