Bugfix

See more cases in service desk overview

Fixed 'fetch more' button in the service desk overview.

Updated the old user portal to reopen a case when users' comments on a case that is solved

If case is solved and enduser adds a comment on the case, reopen the case in agent portal.

Notification to all agents on teams did not work

Notify agents (if settings enabled in team dialog) when the case is registered to a team via email.

The subject field was too wide on the case dialog for mobile

Fixed the size of the subject field for case window on mobile.
