

8.5.1

Release date: 20 aug 2020

Bugfix

- An issue where it was not possible to edit photos in emails and cases was resolved.
- Saving tasks failed in some cases
- Service desk Overview: A function introduced in 8.5.0 was reverted. Merged cases that were not set to solved and belonging to the main case that was set to solved were shown in the case overview, even though this was not selected in the filter.
- Export of case to calendar: An issue where Norwegian letters were not handled correctly was fixed.
