

8.6.5

Release date: 20 okt 2020

Feature

- "Create as Standard Change" is now available from "Related Cases" in Incident, Service, and Access.

Improvement

- Case templates have been added for the Change case type.
- In the case log:
 - It is now possible to click on an image and see a large version of it in a pop-up.
 - There is now a limit on image width, they are resized to fit.

Bug

- Asset management Reports: Fixed some missing translations
- Change Calendar:
 - When opening a change and clicking a date, the date picker dialog would sometimes flow outside the window.
 - Fixed styling for the Agent picker.
- End-user dialog: The manager is now deleted when the manager field is empty.
